### Fast Results

A 400 MHz CPU, quick 16 second First Print, and up to 17 Letter Size Pages Per Minute ensure fast turnaround of lengthy documents.

### At Home in Any Neighborhood

Whether you connect locally via Parallel, Serial, USB or Ethernet, the FS-C5016N blends seamlessly and provides support for all popular PDLs.

### Excellent Image Quality

The FS-C5016N delivers outstanding image quality at 600 dpi, providing the user with a clear, sharp image every time.

### Large Capacity Memory

With 96MB RAM standard and the ability to expand up to 608MB, the FS-C5016N can handle even the most complex documents.

### Low Total Cost of Ownership

With a high yield toner cartridge of 8K prints, the FS-C5016N is ideal for the print-intensive user who is looking to lower the overall cost of printing. Plus, our ECOSYS® design ensures a low cost per print and reduced overall Total Cost of Ownership.

### Spend Less. Waste Less.

Kyocera's objective is to make the best products, with the lowest total cost of ownership (TCO), with little or no impact to the environment. Kyocera's ECOSYS® Technology provides customers with a printing product that incorporates long-life consumables and the lowest comparable cost per print.

With traditional cartridge-based page printers, costs can easily exceed more than three times the original purchase price during the life of the product. By utilizing Kyocera's proprietary long-life technology, a user can recoup a printer's purchase price in a year or less, particularly in network printing environments.
